

Tech Stack & AI-Native Product Workflow

Sam Treadwell

How I Use AI

I use AI as a collaborative design and development tool to accelerate research, product ideation, critique, and implementation during prototyping. Final design decisions are driven by user needs, business goals, and iterative design thinking.

Design

Figma · FigJam · Sketch · Photoshop · Illustrator · InDesign · Canva

Development

HTML · CSS · JavaScript · TypeScript · React · Next.js · Tailwind CSS · Bootstrap · Chart.js · Node.js · Git/GitHub · CLI

AI

ChatGPT · Claude · Cursor · Google Stitch · Figma Make
