SUMMARY

I'm a product-minded designer bridging UX and frontend development to create engaging, accessible digital experiences. I turn research insights into scalable design systems that influence user behavior, drive engagement and conversion, and deliver measurable outcomes.

EDUCATION

NORTHEASTERN UNIVERSITY

Master's in Computer Science, 2022 – 2026

UNIVERSITY OF SOUTHERN MAINE

Bachelor's in Finance, 2017 – 2019

EXPERIENCE

NAVIMENTAL

Sept 2024 – June 2025

Product Designer (Freelance) - Portland, ME

- Led early-stage prototyping for the [startup](#), translating ambiguous requirements into testable UI, and concepting interactive features for animations and visual responses.
- Designed data visualization interfaces for a journal feature, emphasizing clarity, hierarchy, and user comprehension.
- Constructed a scalable discovery library to support content exploration and future feature growth.

TYLER TECHNOLOGIES

Jan – April 2025

Software Developer (Co-Op) - Yarmouth, ME

- Collaborated in an Agile environment using Jira and GitHub, working within production-level engineering systems.
- Contributed to a cloud-based enterprise application by debugging and improving data workflows.

THE VIA AGENCY

May – Aug 2024

Creative Technology Intern - Portland, ME

- Designed and developed an AI-powered chatbot concept to support product discovery and brand engagement.
- Built a reusable carousel web component to enhance engagement and storytelling on the company [website](#).
- Created digital and print assets for a regional campaign to drive awareness.
